

GOD DIRECTS EVERY ORGANISM TO GO ON HIS FIXED DISTANCE OF LIFE AND DO HIS ASSIGNED DUTY WITHOUT WAITING FOR THE RESULT

**Nrusingh Charan Mohapatra , M.Sc ,M.Phil
Rtd Reader in Mathematics ,B.P. College ,Odisha ,India**

ABSTRACT :

God is the common name of Allah, Jesus, Krishna etc. The name gives the shape, size ,quality and quantity of a thing , So name is everything. God is the Universe and Universe is made of Energy and matter .Matter is converted to energy and vice versa. The conversion is the eternal process of the changes in the Universe . God is the thought of human mind .God is the master as well as the ruler of the Universe . Man is created from the Earth by the influence of the Universe .Every celestial body is created from the Universe and destroyed in the Universe . Likewise Earth is created from the Universe and it will be destroyed in the Universe in the far future .

GOD DIRECTS EVERY ORGANISM TO GO ON HIS FIXED DISTANCE OF LIFE AND DO HIS ASSIGNED DUTY , AS GO AND DO ARE DERIVED FROM THE WORD GOD. GOD IS GOOD FOR EVERY LIVING BEING . GOD IS GOER AND GOD IS DOER . DO IS DERIVED FROM THE WORD GOD . DUTY IS DERIVED FROM THE WORD DO , SO DUTY IS DERIVED FROM GOD. HENCE DUTY IS GOD . THE DUTY OF A MAN IS TO DO LOVE , DO SERVE , DO HELP AND DO FORGIVE TO THE HUMAN BEINGS .

The ancestors of the human beings are about 6 million years old in the Earth. The modern form of humans are evolved about 2 lac years ago .The humans' civilization is only 6 thousand years old .There is no evidence of any word meaning God in any language earlier to the human civilization .Gradually the man began to contemplate the reasons of any happening in the Universe as well as in the human civilization .Koran states that ,

The first thing created was reason. Allah hath not created anything better than reason . The benefit which Allah giveth are on account of it and understanding is by it . Allah's displeasure is caused by it, any by it are rewards and punishments .

Union and Separation is the law of the Universe .Universe is made of energy as well as matter. Matter is converted to Energy and Energy is transformed to Matter , It is the **Go** of the Universe . Changing is the eternal process of the Universe . So nobody knows what will happen to him in when, where and how .Man can not know the mysteries of the Universe and also he can not prevent the dangers, which come to him .So this situation compels the man to believe in the supreme universal power God, who is worshipped by the Christianity, Islam, Hinduism and Judaism as the creator ,ruler and saviour of the human society. Man believes in God in the humans civilization to avert his dangers and to fulfill his desires .

So man prays to God to prevent himself from the dangers and to fulfill his aims . Man is created in the Earth by the influence of the Universe .The man is made from the Earth in such a process that his faith in God makes him strong in mind and body. If he fears something then his mind and body becomes weak as a result he can not face any problem . Man can not know what is going to happen in his life in the future, as he is unable to know the rules and the regulations of the Universe . Life of a man is uncertain in this Earth, So he also believes in Luck.

KEYWORD :

God , Go , Do ,Duty , Good , Goer , Doer , Deed ,Human Being ,Earth, Universe , Luck ,Labour, Result .

INTRODUCTION:

If the letters of the word God are arranged then the following words are formed such as do, go, deed ,good ,duty, doer and goer .How these words are used in various religions are given in the following ways .

Jesus Christ says Father ,forgive them, for they know not ,what they do.

Nanak says, There can be no worship without good actions ,that he is the true man, who loveth God and loveth man and serving all abideth in eternal love .

Jainism says ,There are no Gods or spiritual beings that will help human beings.

Lord Krishna says He who performs actions dedicating them to the lord and giving up attachment is not touched by sin as a lotus leaf by water.

Mahabharata says never should a man do to another what he would not want another to do to him, this is the essence of all dharmas .

Koran says ,An hour's contemplation and study of God's creation is better than a year's .

SUBJECT MATTER :

If from the letters of the word God, **G** stands for governor, **O** stands for originator and **D** stands for destroyer, So **God is governor, originator and destroyer**. Again from the word God, **O** stands for omnipotent, omnipresent and omniscient. So **God is omnipotent, omnipresent and omniscient in the Universe .**

No one can see God with his eyes, but every one of us can realize him with the help of one's purified intellect. He resides in the hearts of his devotees. If the water is clear and static then one can see his own image in it, similarly when the heart of the devotee is pure and pious then God is realized there.

The light of the sun falls equally on wood, stone and mirror, but it is seen in the mirror only and not in the stone or wood.

God is present in every heart and cannot be seen in the wood like impure heart of the man without devotion, but He can be directly observed in the mirror like pure heart of the devotee. So **God is of the devotees .**

If the letters of the word GOD are arranged as **G** stands for **GOD**, **O** stands for **ORGANISM** and **D** stands for **DIRECTS** then altogether these words state that **God directs the organisms**.

If the letters of the word God are permuted by taking two letters at a time, then only two meaningful words Go and Do can be formed.

As go and do are derived from the word God, So **God directs every organism to go and do. Do means do his assigned duty without waiting for the result and Go means go on his fixed distance of life.**

Hence “God directs every organism to go on his fixed distance of life and do his duty which has been assigned to him without waiting for the result” .

The above expression is same as what **lord Krishna** has told to **Arjuna** in **Gita**, that **“KARMANYE BADHIKARASTE MA PHALESU KADACHAN”** .

The above expression is same as what **New Testament** states , **Go and Sell that thou hast and give to the poor and thou shalt have treasure in heaven .**

The above expression is also same as what **Taoism** says , **Go with the flow and Let go .**

The above expression is also same as what **Mahavir** preached , **People not to do harm to any living being .**

The above expression is also same as what **Islam** says, **Really live your life, enjoy your life, accept whatever situation you have been given and work through it happily .**

- G - Governor**
- O - Originator**
- D - Destroyer**

The word go is derived from the word God, and the word goer is derived from the word go. So **God is goer**. Similarly, The word do is derived from the word God, and the word doer is derived from the word do. So **God is doer** .

Hence altogether it states that “God is goer and God is doer”

The above expression is same as what Lord Krishna has told to Arjuna in Gita .

“ YADA YADAH DHARMASYA
GLANIR BHABATI BHARATA ,
ABHYUTHANAM ADHARMASYA
TADATMANAM SURYAMYAHAM ,
PARITRANAYA SADHUNAM
BINASAYACHA DUSKRUTAM DARMA ,
SANSTHAPANARTHAYA
SAMBHAYAMI YUGE YUGE ,”

The above fact states that, God goes to the earth as an incarnation when and where he is needed, but after establishing the dharma and killing the wicked demon, He goes back to his original position .

Duty is derived from Do and Do is derived from God. So Duty is derived from God.

This implies that **Duty is God.**

The word good is derived from the letters of the word God . Deed is derived from the word do .

So God directs every body to do good deeds to all living beings as Duty is God.

This expression is also same as what

Bible says, The best way to do good to ourselves is to do good to others .

Human Society has reached the modern age due to the labour of the people .people are equal in God’s administration but people are unequal in man’s administration. Man is the architect of his own luck .Fortune often knocks at the door, but the fool does not invite her in . Luck knocks once at least at every man’s door . Luck makes kings and poors .

So the luck and the labour of a man are important to determine the result.

Everything happens in the world by cause and effect .

Luck is the outcome of chance . Chance is considered as a force that causes good or bad things to happen .Success or failure is apparently brought by chance rather than through one’s own actions. What is lotted, that can not be blotted. This implies that the luck is very important in the life of a man. Duty is God, this means the duty is also important to live in this world. Duty means labour of a man. Both the labour and the luck of a man determine the result.

“The labour of a man is directly proportional to his result, when his luck is constant in that purpose”.

This implies if the labour of a man is increased then in the same proportion the result is increased and also if the labour is decreased then in the same proportion the result is decreased.

Mathematically this can be expressed as follows,

Labour \propto Result, when the luck is constant -----(1)

Again **“The labour of a man is inversely proportional to his luck, when the result is constant in that purpose”.**

This means, to get a fixed result, if the labour is increased then in the same proportion the luck is decreased to get that result. Similarly if the labour is decreased then the luck should be increased in the same proportion to get that fixed result.

Mathematically this can be expressed as follows ,

Labour \propto (1/ luck) , when the result is constant -----(2)

The environment plays an important role to achieve something , where the environment is the constant of proportionality. If the environment fully supports a man then the environmental constant value becomes unity .

If the environment does not support fully to a man, then the value of the environment becomes a fractional number. But the man chooses the environment according to his choice for his betterment . Therefore the environmental value is taken as 1 in most of the cases. But if the environment does not support to somebody in sometimes in that case then the value of the environment is fraction .

Combining the facts (1) and (2) , It is obtained that

$$\text{LABOUR} = \text{ENVIRONMENT} * (\text{RESULT} / \text{LUCK})$$

$$= 1 * (\text{RESULT} / \text{LUCK})$$

when environment = 1

$$\text{So LABOUR} = (\text{RESULT} / \text{LUCK})$$

CONCLUSION :

The civilization of the humanism is the exploration of the truth of the Universe. So the human society should know the following facts one and all.

Universe is made of energy and matter. Matter is converted to energy and vice versa for ever .So union and separation is the law of the Universe .The properties of the matter and energy are darkness, light, heat ,cold and sound. Man is a part of the Earth, he is created as well as destroyed in

This implies that,

$$\text{RESULT} = \text{LABOUR} * \text{LUCK}$$

Case : 1 Luck makes kings out of beggars and beggars out of kings .Luck favours the brave . If the luck of a man does not support to him at all in any particular work . Then the luck is taken as zero .

We have , $\text{Result} = \text{Labour} * \text{Luck}$,

So $\text{Result} = \text{Labour} * 0 = 0$, As $\text{luck} = 0$

Hence **RESULT = 0**

Case : 2 Labour without luck helps not. Labour is the mother of good luck . If a man does not labour in a particular profession for waiting the luck , then the labour is taken as zero.

We have , $\text{Result} = \text{Labour} * \text{Luck}$

So $\text{Result} = \text{Luck} * 0 = 0$, As $\text{labour} = 0$

Hence **RESULT = 0**

the Earth .So Earth is a part of the Universe, Earth is created from the Universe and it must be destroyed in the Universe in the farthest future. Every celestial body is created from the Universe and that is destroyed in the Universe. When the rate of rotation of the Earth will be equal to the rate of rotation of the moon then the atmosphere and the water of the Earth will disappear as a result the living beings will be destroyed from it .

Man is created from the Earth by the influence of the Universe and he is destroyed in the Earth .Man is a part of the Earth before his birth and after his death. Man cannot know all the rules and regulations of the Universe that is why he believes in Luck as well as God due to the fear **of the dangers in the Earth and also the reason of aspiration to fulfill his desires. God is the infinite energy and master of the Universe in human thought.** Who saves and rules the human society irrespective of caste , colour , region and religion . Life is an equation of the body such as

14 parts inhalation of oxygen = 11 parts exhalation of oxygen + 3 parts absorption of oxygen

in the body . Life of a man is uncertain in the Earth , What will happen when to a man ,nobody knows. Man should not believe to his breath because life is a bubble of water .So man should live happily and peacefully as long as he is alive .

Every man should love, serve, forgive and help to the human society. He should meditate for his mental health and he should work according to his wage for the physical health .

Lord Krishna says to the man ,The wealth which is with you in present ,that was somebody else in the past and that would be somebody else in future .Nothing is permanent and everything is changing continuously in the Universe. So your youthness ,wealth and beauty must change. You have come alone with empty hands and go back from the Earth with empty hands .Hence man should not boast of what he has .Every living being has the right to live in happily and peacefully in this world .

Due to the above reasons, “ God directs every organism to go on his fixed distance of life and do his assigned duty without waiting for the result “.
