About Author:

Sarahu Nagarazan, 01/06/1988 was born as a human incarnation to the earth. And he has come for the welfare of world. What he has suffered in this human incarnation is as follows. Beginning with the vicissitude of his Love. He did continuously 8 years DhyĀna or hypnotism for his first lover Uma. In these 8 years, last 4 year's Suma came into his life and infringed in DhyĀna or hypnotism. Then he continued DhyĀna or hypnotism for Uma. After 8 years instead of getting the power of hypnotism, he received the grace of illumination on god and world. Uma is elder than him a year and Suma is also elder than him two years.

Projects and Descriptions:

Project 01: According to research of 'SISBRA' animals and birds have more wisdom than man and birds have Lenore wisdom than animals. In the lake water got evaporated due to the heavy temperature. Birds also feels that but although lake gets fill with the help of irrigational folds, how das, it got to known them is the wisdom, and normal man takes 3 hrs to travel 100 km by bus or public transport or 2 or 2 ½ hrs by own vehicles like car or bike, but birds need only 20-25 min to travel hundreds of Kms. They can make faster than airplanes. They can get to know only with the smell they come back to their places from migration. This is not possible by the man of man lossed in a forest he can't recognize the spot of water or the way to his place or else he will die by helplessness but the animals got this thing by nature itself. Hence the animals & birds are more differ than human.

Project 02: Research says every individual are controlled by the lord of death Yama, after the death also they characters and nature remains same. They remain till they get new body. Snakes also do the same as human. Man facing much of the troubles due to this. Any life of the world goes into the authority of Yama's after the death. They reach are enter into the Yama authority within 3 days. There in the authority of Yama the dead people get only 20gms of food at 2 times with the enquiry they get the suitable punishment. But when are in the rest they fall on land in the form of air and also in different appearance to see their beloved and also appear in their beloved bodies according to their plant system and in case of death of elder people they could see their dearth before they get the notification of earlier only after dearth they will be in the care of Yama. Sometimes they appear in land they would be the reason of accidents, irritations, for work, trouble in weddings & other problems they all are the rules of nature. Usually the soul of common people are authorized by Yama but only the saints and same special powered people have capacity to overcome from that caught. But at initial stage they also caught by Yama only. Even the Swamiji's saints soul can also converts as devils. They are under nature.

Project 03: according to the research of 'SISBRA' the reason for decrease in life span & early dearth are the character of the Man & also current function of the man. And also less usage of current technologies can also help in the good life span. In this physical world the invisible lives have the more energy than visible life because of them world is facing various diseases, accidents, irritation, confusion cheating loss floods etc.

Project 04: Usually man & animals fall sleep during evening or night because sunrise occurs in different time in different countries Eg: if it's a 6 pm in India & American time is a6 Am, when people use to sleep in India timing shift to America they change their schedule & adjust themselves according to their climate & nature. The time of working in India is time of sleep in the America. The secrete behind this is the extreme life which is present in the environment is the reason for this those life are relaxing a kind of acid of animals that acid tends to get sleep & when they bites.

Project 05: cobra is (snake) visible to some people in the night they use to see the continuously. They are 2 kinds of cobra one is common cobra & another one is energized cobra. Only the common cobra are visible to the eyes but the energized cobras are invisible if the people suddenly saw this snakes accidentally, they will be definitely appear in the dreams. Then they suffer with body ache. There is a chance of horrible effects but those are temporary.

Project 06: sometimes man feels pain in his body. That doesn't mean he has lack of vitamins, it many due to the invisible energy or else the power of back – magic. But usually doctor suggestion is incorrect its completely due to effect of snakes, block magic, and through some negative energies and even it is reducing with help of continuous observation of doctor but sometimes it's not clarified.

Project 07: Snakes mean cobra keep grudge or angry and bites the people its true basically they have less memory power but they can easily identify the man by the smell of toes of man. It means the every particle of the body releases the sweat it reacts with earth & it help to identity. Even dogs can also fallow the same procedure. But some of the snakes wait for that particular person where he had disturbed it & till he comes back it easily recognize affect the year. But a snake loses their eyesight when they see the pregnant women. They suffers from it till the delivery.

Project 08: They are too many characteristics in the world. How the man is of character even the every creator, plants, oceans, rivers there is a specialist in every character it flows as river & reaches ocean. Man is different than other creator. Even the plants are of characters even the Zodiac signs and stars are also of characters even the invisible energy is of this there are formed with character of soil. Some are from air they use to fly all the time.

These are named as Penta - aspects these are plants. It means air, water , soil, sky, all the visible things called Penta- aspect they are get existed by the research so many invisible –power also created by them. Because of them many problems like accidents dangerous incidents etc. Eg: The bike caught for the accident. It doesn't under go for accident there is reason behind that is Penta- aspect.

In the ancient days the saints & geologists used to say that man is of Rajo Guna (superior) & Devils from Thamo Guna (inferior). How the people god devils are born with the character & many greater are of different character. Even the gods are also living things. Micro organisms but they are invisible. God is devils are invisible so they have more power than man so that we are fallowing them. They are present in every nation city, town, they are leading life. The organisms which have the more mental energy are invisible & which are not visible they have less power.

Project 09: Who eats more rice & other sewer of rice will suffers with diabetes & mental disturbing because rice has the sugar molecules they produces in the urine and also effects on the neurons of brain it results in mental retardation & man suffers with largeness after ageing.

Project 10: Souls travel faster than light. They travel with the light frequency even they can shift to the planet in only a second. Eg: man souls after death can move to the America with a second or even it goes to fetors a women can't be a pregnant before seals reaches to her womb. How the calls are available where there is no network sane as if the woman doesn't attracts the soul she doesn't be a pregnant. This is also another kind of reason for infertility.

Project 11: The death of a man is nothing but out coming of soul from the body how the five emits the shadow & it absorbs after some time. The body of second man is quiet in the initial stage so the truth is soul is present. There are no foregone without soul.

Project 12: According to research of sis bra, 55.3% business men are suffering with problems, diabetes nerve diseases and all.

Project 13: Sleeping during day it moans in the prance of sun-rays causes, humiliations, headache, lock of vitamin, lock of calcium, B. P. Diabetics & mental disturbance & some will become logy & mentally retardation.

Project 14: Excess reading & excess use of phone (mobile) & watching television cause thyroid & liver problem or acidity appendix.

Project 15: Removing hair from any part of the body results in infection, use of blade, skjors, or other chemical materials causes skin infection.

Project 16: Changing dresses or costumes everyday makes man infection; because of he is very sensitive.

Project 17: According to the research of sis bra 95% of advocates are present in the courts.

Project 18: According to the “sisbra” research people are living to each other just because of their selfishness.

Project 19: According to “sisbra” research people are becoming rich by living & cheating are of 85% & 15% people are following the legal way.

Project 20: 500 out of 100 living organisms consisting of planetary contents in their blood. Opposite planetary people can't donate their blood. Only the like planetary people can donate their blood. Or else it leads to the expansion heart, pain in body, migraine, etc it finally leads to the weakening of mind.

Project 21: Over sleepiness makes blood sweet, it causes diabetes later & causes pain in body, headache, etc.

Project 22: Using hen (fowl) to remove all the negation energy from man & dumping it in the earth by chopping it treats rapid diseases & fertility, pain of body all can treat with this method.

Project 23: Man is changing his tongue (i.e. changing his words) without minutes due to the distance between moon & earth and if there was no rotation of planet. There was no monument of life. Whole life will be constant.

Project 24: Who has the defect in chromosomes or lack of chromosome will face eye-problem and in the older age their eye-sight becomes blurry.

Project 25: In the physical world of us so many people failed in hunting of earth treasure and only few people were succeeded, reason behind this below.

Of there is a thing written with the proof of their date of birth & time is mentioned with treasures they definitely get it. Every single piece of rice is named with is no need of black magic, negative energy etc.

To get that treasure the person should be blessed with that particular season time, minute, folic song, star, month, week, date & seasons then only he get that. Till that person doesn't get it with any kind of hard work. Every treasure is named with that person as written on the rice.

We can't say that the baby who is burned to the parent is of other, as same this the treasure also has the particular owner if the baby is given as adeptly but still birth give parents are the real father & mother. Same as this the birth aspects are the real reason for writhing.

Of anybody wants change those aspects, the people like saints, God, Scientist it won't, how the main pillars of house of house is removed the house get distract, the date of time of birth decides factice sun and all these are the pillars.

The earth has creator because of presence of molecules so even the beneath the earth of life is exit. There inner life disturbs the life on the earth sometime they are invisible to naked eyes. They are too sensitive and dangerous. Eg: the treasure in the earth also has the special kind of art. It also leads life it too has life. That's why when man tries to grab the treasure it kills him & taken his life away.

Project 26: There are 99% of invisible power is present on earth, only 1% of invisible strength is we are seeing.

Project 27: In the world the negative energy is attracting women more than man, 97.3% of women are attracting them, because the emotionally, feelings, looks are more attractive.

Project 28: The blood which bleeds from a tree every month has the negative energy. Its negative to the god they are totally opposite to each other but it doesn't appear negative to the man.

Project 29: In the world the girls or women are achieving in the field of education more than men.

Project 30: man is feeling sorrow & non-resistant in every one hear & he is trying to smile every 2 minutes.

Project 31: Who eat more oily foods & junks usually suffer with weak sense of mind. Because it contains cholesterol, it makes his brain weak it makes him confuse, it contains more fat it help to increase the weight even it affects the brain so then it weakness the nerves of brain, hence it leads to laziness, acidity, later in the age of 60 years it causes mental disorder, it loosens the skin & causes headache, eyes problem, diabetes, ear problem.

Project 32: The dead souls of father & mother or relative causes disturbance in important works, sorrow, irritation, loss of peace. They use to fallow behind the back. They are invisible, this problem is forever till they get peace. But these dead souls are invisible to the intelligent man.

Project 02: 77% of people who doesn't have much hair on their head are the brilliant people or the skilled proficient or intelligent.

Project 33: According to the 'SISBRA's discovery 95% of prevaricates of falsify (i.e. not telling the truth) are we can see in the advocates and court.

Project 34: According to the research of 'SISBRA' 85% of people are getting richer or wealthier by their lies and cheating and 15% of people are getting richer with the legal activities.

Project 35: Excess rate of sleeping results in increase of sugar level in the blood. Later it leads to the diabetes because of this migraine head ache, pain in joints and suddenly falling down during the sleep are seen. This weakens the mental health therefore sleeping habit should be in the particular time and should be in the night and sleeping habit during afternoons are the reason for the nightmares and mental illness.

Project 36: 97% of people suffering with the diseases due to the water and the particles of water humiliation, diseases like cold and coughs are seen.

Project 37: 97% of animals and birds are suffering from the various diseases which are causing through water and its particles.

Project 38: With the effect of seven circles man suffers oftenly with cold, humidity, danger, inferiority complex. In case if the seven cycles stopped its junction then “death” is only the thing which all world could face. According to research of ‘SISBRA’ man has the lifespan based on the how much hair he has on his head. If one hair gets fallen shows the one day of his lifespan is completed. Every day with the imbalance of seven cycle’s man is losing thousands of hair per day. It means he is getting death sooner.

Project 39: according to the research of ‘SISBRA’ the power of soul of man is greater than the power of God & goddess.

Project 40: In this world man performing his routine activities succeeding 94.3% alone.

Project 41: In this world 37% of people suffering from bleeding in some parts of body due to mental depression.

Project 42: In this world 87% of people committed suicide just to achieve their daily needs.

Project 43: In this world 99.3% of people are losing faith in god and other people and trust & interest in neighboring people due to their weak plant system.

Project 44: 27 % women are suffering from infertility due to the thyroid and 73% women are infertile because of negative power of earth treasurer and of some other powers.

Project 45: In this world 98.6% of people are serving the nation, social servicing just because of selfishness and greed of money.

Project 46: There is a lot of difference below male & female in the thinking capacity, knowledge & in facial expression women are too fast in urgency forwardness, frustration than the level of man's thinking's. Women have the sensitive heart than gents so they get tears fast, i.e. nature's system in their thinking ability but in the life of man & women have the similarity in the likes & wishes here there is no difference between them. But according to the research man & women both have equal thinking ability. For example men have the more doubts of women so many people doesn't believe on them. If man has the illegal relation with other woman no one would its wrong but if the woman does it all protest her & keeps her with light security and treats her with inferiorly & argues that women always a cheater and there are four kinds of women progenies due to the lack power of neurons this trouble can cause.

PROJECT 47:

As like as human beings convicted and sentenced to death by a government and, kept in a prison, similarly animal birds can also be imprisoned. They are punished by humans or by five physical elements (panchaboothas). Only by the seeing of them does the man kill them and eat, or even they kept in a cage. No matter what crime the birds, animals are guilty. The animals, birds are also in a tangle cage. They too are committing crimes as like human beings, and they also practicing law. Humans can also be punished by humans himself or by five physical elements. How man is in a unique position.

PROJECT 48:

There are also having horoscope or birth kundali to the animal, birds like human beings or other living organism or alien life. They too have planetray like human beings or (resemble man-made planets and mass stars. Is planetary life.) (Investigation duration: 3 years)

The zodiac and the constellations of the birth kundali or horoscope is there for every living thing found on the earth, are similar to human beings. Every human being that is found or recognized in the world today, in the same manner the other living organisms can be treated which is found on the earth. A birth kundali is applicable for all of them... But the human assumes that they do not have the birth kundali or (seem to be born to life piles today.) For example, if a man is stands in front of a lizard, the man will look distorted for the lizard. Similar way if a person stands in front of a turtle or any micro-organism, for they man look like distorted and vice-versa. But the language of animals, birds is unknown to human beings. Language is not perceptible. They are stronger language than the language of humans. Regional dialect is also applied to human beings by their respective denominations.

There are fears of death as a human being, even for the world's living organisms. Demolition is happening.

Humans can be born again from the death or become a ghost without peace. This may be time scale of the humans expired (dead) or the result of a previous birth. The invisible spirits of a person are capable of realizing the same. There are far more invisible forces that are visible to the animal than to humans. This meant that the animals had stronger powers than humans. Still, billions of living things have their own unique and highly sensitive language.

- According to research animal, birds are far cleaner than human beings. There are only 25% of humans are clean.
- Biomasses or (other living organisms) in the world are also dying and reborn. They can be born a human being or a human can be born in a host of microbial life.
- Human being is only a dead spirit or a human who is called a devil. Yes, as a human being, with the billions of living beings in the world, these can again born into a devil? Or some other form. Similarly as human beings, there is lot of other living organism of their horoscope or birth kundali once they die they can become a devil or they can be any other form, it depends on their birth kundali. When humans are only born in the earth today, sin is not practiced. Animal, birds are also stealing. The same birds also is hunted to other Biomasses and killed. The birth of humans is nothing special.
- The human being is more intelligent rather than any other animals, birds in the creation of nature. The human body is called because of shape of the body which is available to the humans. The body of this man is of great importance. This same body is taking on the most important and ghostly, magic creatures called ghosts.

PROJECT 49:

Planets, stars and piles are unraveling like human beings even to the soul. It is very similar to God. (Investigation duration – 8 years)

If God has to perform a trick or magic in the presence of people or a devotee to fix a problem he has to deal with, then the planetary situation of God and the devotee must be applied there....Subsequently the devotee's star must be justified whether it is similar to the star of God.

Otherwise the trick or the devotee will not get the benefit of a believing God. But at some point the believer's star (zodiacs') will be very hard, but the planetary situation can solve the problem of believers. Here the soul is God. There is no doubt, then, that the soul is like the planets.

- The human being is dead and haunted by ghosts, along with any other influential varieties, the ghosts are haunted by other ghosts. It's like a very delicate wave.
Is a very delicate matter. But this is not equally visible or (sense) to the humans.
For example, there may be a structural problem in a house, or other illnesses that are plaguing one by one, or a snake can see in dream, a girl's can visible in dream, or a young child's is visible in dream. There may not be a vastu (science of architecture) or structural problem of house, nor is there any magic spell, nor is it a genealogy or a chromosome. It can be a hidden object in the basement of their home or their land, or any other type of influencer. As mentioned above, any other influential ghosts and powers are possessed. The dog also becomes a ghost, according to the actions of the dead (or karma). A herd, a buffalo, and a bird also carry this birth. Only one species can endure their own birth or attain salvation. Humans or a number of other biomass knows their birth kundali from the stars and planets.
The asteroids, stars, and planets give effect to each other. They do not have the same effect on all species, i.e., the world's biomass. Likewise, the planets provide the same kind of intelligence for the rest of the biomass as human

species. This is also the influence of a star, asteroids and planets. That is, the constellations and planets give birth to their respective variants. Again they exhibit their corresponding activity. For example, a man is suspicious of his wife. But in any of the other biomass varieties, one can indulge in any females. They are not suspicious. The man gives makes money. But other types don't make money. It is the life of a variety of planets, stars and planets. But there are a few.

The secret birds, animals and humans born in Aries.

- A man born in Aries usually draws people with extraordinary personality power. There are great pros who want challenges, bold and enthusiastic, they are admired by everyone and are honest and buoyant. But the hen, tortoise, elephant, dog, ox, etc., born in the same Aries have similar qualities. Their age group is also different. Their activity is also different. Even the soul cannot die. It is not spontaneous but omnipresent. The Lord alone has power. But if it is the soul, then the body, according to the constellation, star and birth kundali will act in the same way as the human body. Similarly if the same spirit enters the body of the hen, it will act in accordance with the body of the hen. But in the constellation of Aries moon sign, the mother or father of man is subject to the death similarly to any animal, whether a foot 1 or a foot 2 in the star (Aries or Ashwini zodiacs ashwini Nakshtra pada1, pada2). Similarly, the mother of the animal's father is also involved in the accident.

What and all diseases causes while the birds, animals were born in the zodiacs'

(Generally, humans born in Aries has heat and acidity diseases, and even a bird born in Aries has similar types of illnesses. Here we couldn't specifically mention exact name of mammals or There is no such thing as a bird or animals of course, this kind of sickness becomes tied to animals, birds when Aries relies.)

1. Birds, animal's beasts and beasts born in Aries are as hot and brittle similarly as humans. And the mind is constantly wobbled like humans.
2. Animals and birds born in Taurus are a blood-related disease, often with abdominal pain.
3. Animals and birds born in Gemini (Mithuna's) pile are hemorrhoids, neurological disorders.
4. Animals and birds born in the cancer sign (kataka) are known to cause blood related disease, hemorrhoids and sputum.
5. Animals and birds born in the lion, strain causes blood related disease, blood pressure, eye deformity, and tyrosis.
6. Animals and birds born in Virgo, are prone to skin disease, abdominal pain, indigestion, acidity, and anemia.
7. Animals and birds born in Libra are prone to bowel problems, drowsiness, and irritability.
8. Animals and birds born in the scrotum have hemorrhoids, air rashes, dermatitis, and frequent fever.
9. Animals and birds born in Sagittarius are suffer from nervous weakness, inflammation, acidity associated with the throat, ears.
10. Animals and birds that are born in Capricorn are stems from health problems such as pain, nausea, nervous weakness, etc.
11. Animals and birds born in the Aquarius may have eye problems, abdominal pain, and headache problems.
12. Animals and birds born in the Pisces have the Blood borne illnesses, neurological problems, eye problems.

Special: But animal birds, rather than humans, are rapidly recovered from deadly diseases or smallpox. (Or From the five physical elements)

1) If the animals or birds was born in the Aries, if the same was entering into the female body then how would have the characteristics of an animal or bird (if it were a female body.)

- Extraordinary personality draws people in.
- All-around great people who want to take challenges.
- Are admired by everyone, bold, enthusiastic, are upfront.
- Have great leadership, and have the ability to be successful.
- Anxiety also worsens. However, there is a lot of work to be done.

- Imaginative idealists.
- Becomes the ideal male partner.
- Most faithful in marital life and wanting to be a spouse.
- Most imaginative and idealistic person.
- There is a need for the mentally insecure, the mentally ill. There will also be shortages. Yet they are confident of success in any task.
- They get bored as work progresses. Do not abandon this nature.
- Overly annoyed, soon angry. Very talkative. They lose their temper and so much patience.

2) Or if it is a husband, it is a man of high spirits and charming personality that every woman can dream of.

- Maintains stamina and courage during difficult times.
- A tough, strong sportsman and a restless man.
- The name and fame gains in the Middle Ages.
- The most intelligent and resourceful prosperity doubles.
- Dedicated spirits who have a long life.
- Working in business enterprise wants to be completed quickly.
- Though grumpy, the temper tantrum is minimal.
- There is a tendency to like new projects, new people, and new interests. Distrust over pessimists. Not tolerated.
- Sometimes a woman (sexually) who is of great activity and of a spiritually temperamental attracted.
- If they are not satisfied, their focus shifts to another.
- They are appearing to be aggressive in the love issues and that leads to misbehaves aggressively.
- They also want to get outside relationships about sex.
- at the time aggressive and the time of work they act like cruelly

3) Or if the animals, birds are become a male or female:

Those born in this pile (zodiacs) are wise, but it's true, over-intelligence can boast of being self-intelligent. The fascination begins with their soul or (heart). The fickle nature leads to mental deterioration in his life. It can reduce mental well-being but also sleep thirst. Mental depression does not hold up. The ritual is minimal. There is lot of enemies, there is no hiding in them. But he succeeds with artistic skill and imagination. You have to be careful about every issue. Slightness or stamina is found in both. Even if an ostentatious gentleman or a silent on the go, sooner or later he is not good. They count even every one rupee, even though they have some health issues they won't shown outside or though in the mind, does not look outside.

- Man looks different from an animal compared to a man born in an Aries and an animal. There are many different kinds of animals. There are planets and stars like every other human being, and the soul is the same. But when the soul is transferred from one body to another, the soul must act in accordance with that body.
- Both herds and cattle are of the same breed. But if the ox or herds are male and female, both the buffalo and tiger are different. Again, the stars are acting like a man. If the strains are to be found directly, the planets, like man, depend on the star constellation, Kundali, of the species.

"Which are animals, birds that were born in the zodiacs can live in a cage of man?"

Summary: The man bred a pigeon or a parrot in his home cage. Or cobra breeds snake, bear, deer, etc. Or at the Bird Zoo or Zoo where some of the animals are on display, the reason for this is their birth kundali or horoscope. The first one is that Ascendant (lagna) and the result of the eclipse after the asterisk or (Asterism) (Nakshtras and other planetary).but apart from this which are all zodiacs entering into planets (grahas) ((laying of hold or seizing) and which are all planets (grahas) (laying of hold or seizing) and zodiacs' Nakshtras (lunar mansions) entering or which pada, ghati and opposite lunar mansions movement any birds and any animals will caught with humans or they will die from the humans or they will ride on the humans or Become fatal. Or they caught with the humans or they escape from the cage.

For example: here is some useful information about the birth kundali or horoscope of some animal birds as I have presented my birth kundali.

- 1) Example of a tiger: Tiger breeds born in any mass, star, Asterism, lunar mansion and they caught with humans lagoons are living in a tangle cage or a zoo, just like humans.
- 2) Tiger breeds born in any asteroid, star, and lagna (Ascendant), Asterism, lunar mansion, like humans, are infested with man or other animals during the Mars and Rahu (sub-periods). When a tiger attacks an animal or a human being, the tiger is killed by any other animal, or animal that has been killed by the tiger for a period of time, as indicated by his or her star and lunar birth kundali. When it comes to yoga (time), it is possible to attack a tiger and other animals.
- 3) again the tiger is caught with humans and living the cage or in the zoo and it can be escaped from the cage or from the zoo this and due of the their birth kundali and the lunar mansion, ascedant, stars and zodiacs' and other planetary motions etc,
- 4) Parrot Example: Parrots born in any asteroid, star, lunar mansion, ascedant, stars and zodiacs and other planetary motions are the main cause of parrots caught with humans and living in the cage or in the zoo or they try to escape from these.(and lagoon are living in tangle cages or zoos in man's hands) during the Saturn sub-period, the Sun sub-period.
- 5) In any zodiacs, lunar mansion and any of the ascendant, Saturn (Shani period) and sub shani period, Rahu(north lunar day) and mars (mangal) during that time the deer will be die from the humans, here the human was trying to kill the deer and the human time and his kundali along with the deer birth kundali should match than only that specific deer will die. (Although there are plenty of deer, only the deer that have died in that group are the victims of human shootings.)

PROJECT 50:

Animals, birds are disorganized in the same manner of humans also disorganized. (Investigation Duration – 8 Years)

From which of the stars are life-threatening crashes possible?

- 1) As like human beings in the world the other living organisms also have Moolanakshtra, Magha Star, Ashwini Star, Charana 1, those who born, in this their father will die. The mother dies if she gives birth in the charan2; this means that a man can be caught in any form, trapped in moving vehicles, or immune to any disease. But if the birth of Moola Nakshtra, Magha Star and Ashwini star charan 3 is a life-threatening, birth for a child and a mother of a father, the lack of food can lead to a life of food-hungry conditions. But if born in the 4th charan respectively, the creature and the parents who are born will have no shortage of food and will live to the end without the other beasts. At the end of the first nakshtra star, the beginning of the moola star, if the life piles are born at the end of the first nakshtra star, i.e. the first 2 hours of the moola star, the birth pits and parents will die. Through by an accident. Or other brutal beasts being attacked or by the tress fallen down.
- 2) There is a shortage of food for the parents and the parents who have given birth to both Ashlesha, the elder and the charan 2 in the stars of Revathy. In addition, other life piles are encountered. And live in a cage or museum. However, in the 3rd charan, the mother of the living piles of birth is destroyed. Born in the 4th charan, the father will die.

- 3) In Pushya 2 and charan 3, Mughanakshtra is in the 1st charan, Chitra star is in charan1 and 2 and in Poorvashadda 3rd charan, a male is born to a father and a mother. The mother will going to die.
- 4) I was born on Wednesday 01/06/1988 for 6 hours and 37 minutes, at the same time an ox and a bird, hen gave the birth. But I am in the body of a man. The ox is in the body of the ox. The cock is in the body of the hen. Mine is Sagittarius zodiacs Moola nakshtra(star) is a Virishika Lagna. Udaya Lagna is also a star, Sagittarius Moola star. Likewise, the hen is also nakshtra (star), Sagittarius moola. But the actions of the mutual ox, the hen, are similar but the behaviors are different... Here the bodies are different and functions as well. Biomass in the world and the same mass of man has the same nakshtra (star). Nevertheless, the constellations and stars similar to man have a different effect on man's body. Also, the age of the animal birds is much higher than the human. Some animal birds live longer than man. That is, there are examples of some animals living more than two hundred years, compared to a man's average age of 100 years.
- 5) As man grows ever more, his creative power is also growing. But the soul is always created with the power of grace. When it joins the body of the five-physical elements, the soul behaves similarly to that body. In addition to the planets, constellations, stars, the planets, asteroids, stars, and the energy of the body, which is required for his body, which is a five physical elements. Once in the infantile childhood system, the body of the five-physical elements of energy has to be known as the influence of planets, constellations and stars. For example, if I had predicted my birth based on Kundali, I would have started writing novels and dramas at my early age because of Birth Kundali in the first place was Jupiter (guru) and second place was surya (Ravi). But I didn't have the ability to hold the world in my hands. This is due to the body of the five physical elements (Panchabuthas.) Planets and constellations grace the gradual growth of man's energy.
