INTRODUCTION

“EVEN WHERE THERE ARE NO SCHOOLS, THERE ARE
TEACHERS” - Sharad Vivek Sagar

Extended days of the pandemic left schools like barren lands devoid of the buds waiting to be flowers; children brimming with energy. That was when teachers carved out illustrious ways out of the difficult times of quarantine to reach out to their students through online classrooms. Tools of teachers never got exhausted, they used pictures, videos, handwritten notes, handmade teaching material, technology driven applications etc to name a few ways to make the boring monotony of online lectures into exciting experiences. This case study is about how an International school in Saudi Arabia came forward with novel ideas to reach out to their students and the covered the gaps and voids created by the pandemic and brought them back to the mainstream. International days are celebrated in the world to create awareness among people about the importance of these events and ethos. Children are those members of the community who make these events celebrations. But in online schooling days educating and including them in these events was a challenge. Devoid of physical assemblies and classroom involvement of kids it is quite a challenge to involve them in such events. So we

introduced PowerPoint presentations depicting the values and importance of such events like World Health day, International Family day, International Doctors day, International Yoga Day, International Teacher's Day, Saudi Foundation Day etc. In the present scenario World Health day , Doctors day and International Yoga Day are of huge significance as they pertain to health of individuals in days of inactivity. Doctors are those angels who reach out to the ailing sacrificing many things in their life. A day projecting these heroes is very important and children have to be aware about doctor's contribution to society. In the century where making breaking of families are not stories anymore making children understand the importance of family bonding is of utmost importance. Taking part in celebrations of a country which is our second home is crucial when kids are informed about Saudi foundation day. Last but not the least to be mentioned is the importance of teachers who are the real facilitators in the upbringing of a nation. So its quite noteworthy to celebrate International Teacher's day.

OBJECTIVES:

The intent is to raise awareness about Country, family, health, education and whole world. To develop the cognitive skill, to increase the academic excellence and to channelize the energy level, we planned to aware them with International days.

QUESTIONS:

*Is the power point presentation on celebrating INTERNATIONAL DAYS is really going to be beneficial for the Primary students?

*To harness the talent and potential of the students , is showing the PPTS in online class on different International Days is going to play some role in developing their scholastic and co scholastic areas?

IMPORTANCE OF INTERNATIONAL DAYS

Educational opportunities surround us particularly when we open our minds to the experiences and celebrations of the rest of the world. International Day is one of our major cultural enrichment programs.

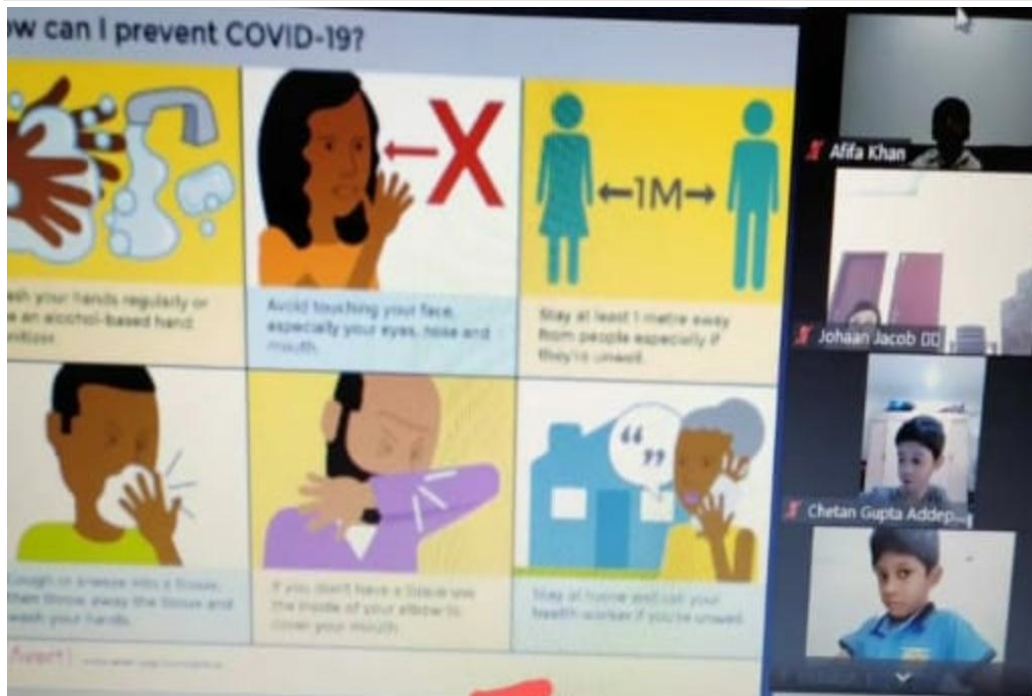

International Schools celebrate many of ' International Days related to world. International Days are a good entry point for teaching and learning about international values and priorities. Schools thereby strengthen the awareness of their teachers and students about significant global issues and reach out to their communities.

METHODOLOGY APPLIED

Powerpoint presentations are quite handy, easy to be tailormade to suit the requirements of Jumping Jack and Jills. An attempt has been made to make use of this technology in online classrooms. Events are recorded by group of teachers and shared and explained in all onlien classrooms. They are buy all means a remarkable record of how teachers have found out a way to express and create awareness among students. These can be further implemented in smart classrooms in post pandemic days too, as we know what is seen is more understood.

We made Incharges for conducting special events and also for making power point presentation for our students so that they can understand the significance of the day. We displayed ppt in online class and teachers elaborated details about the day to the students. Since April 2021 till now we have celebrated 6 International days in the academic year 2021-2022. The overall idea is not only to showcase vibrant and informative slides but also to give them knowledge about the outer world.

- 1) World Health day
- 2) International Family day
- 3) International Doctors day
- 4) International Yoga Day
- 5) International Teacher's Day
- 6) Saudi Founding Day

International Family Day is
celebrated on 15th May.

Happy
Family Day

JUNIOR PRIMARY SECTION, IISJ CELEBRATES WORLD TEACHERS' DAY 2021

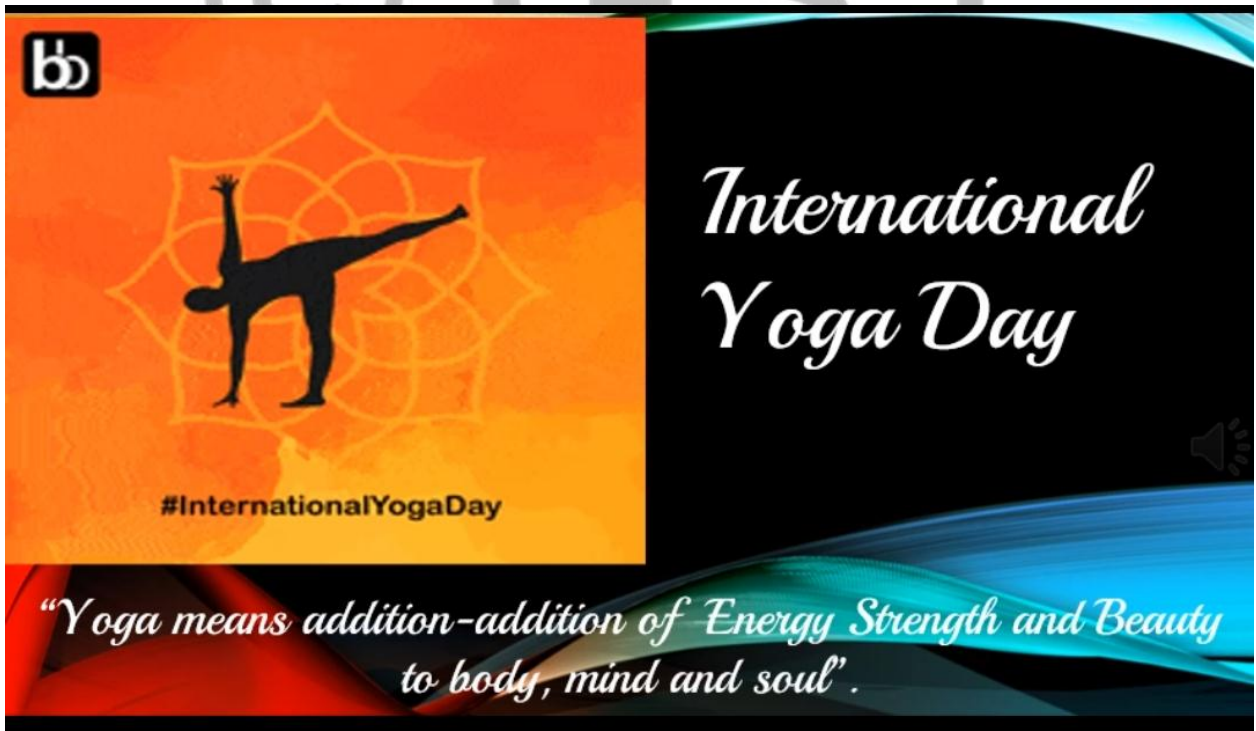

**THE INFLUENCE
OF TEACHERS
EXTENDS BEYOND
THE CLASSROOM
WELL INTO THE FUTURE**

**Ms. Nilofar Rashid
&
JPS Team**

**SAUDI ARABIA ISSUED
A ROYAL ORDER
DECLARING 22ND
FEBRUARY AS
"FOUNDATION DAY",
AND IT IS CONSIDERED
AS AN OFFICIAL
HOLIDAY EVERY YEAR
ALL OVER THE
KINGDOM.**

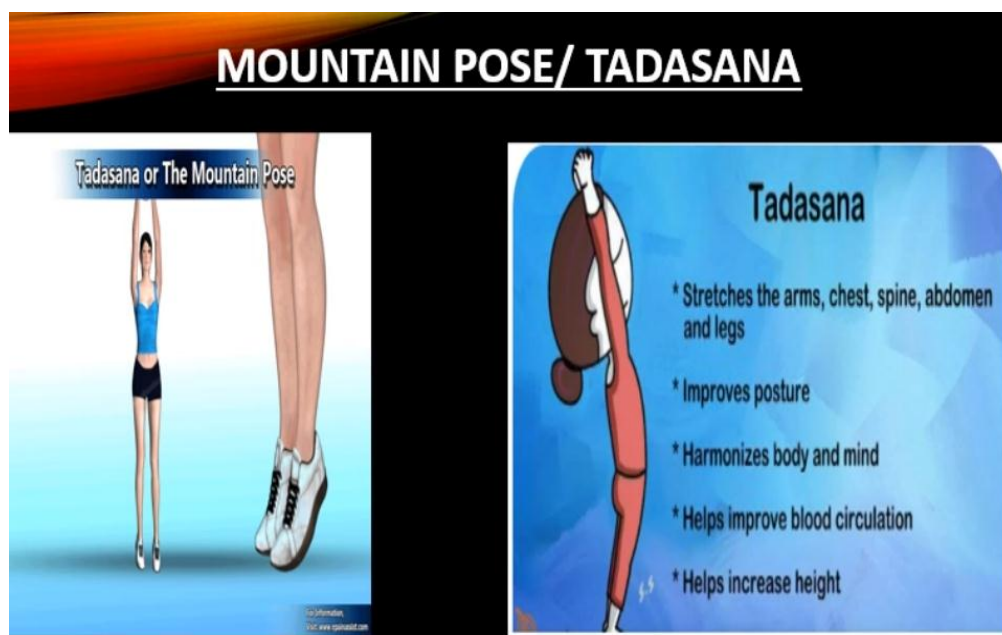

CONCLUSION

Teaching about international days through power point presentation is benefits extend far beyond the classroom and truly last a lifetime by shaping the way that students learn to think, the community they develop, and the professional network into which they enter after leaving the school. We connect them with the world in the way Student will respect and embrace international friends.
